LOCAL SELF-GOVERNMENT DEPARTMENT.

Municipal.

DARJEELING, THE 25TH JUNE 1930.

RESOLUTION—No. 333T.M.

Minister-in-charge: The Hon'ble Kumar Shib Shekhareswar Ray.

By Act III (B. C.) of 1923, the municipalities of Cossipore-Chitpur and Garden Reach, as constituted under Act III (B. C.) of 1884, were included within the limits of the Calcutta Corporation with effect from the 1st April 1924. Since then there has been a persistent tendency, especially on the part of ratepayers of Garden Reach, to demand exclusion from the Calcutta Municipal area on the ground that the inclusion of this area has resulted in an enhancement of the rates disproportionate to any benefits received from the change of municipal status. Private Bills have been introduced in the Bengal Legislative Council with this object, the most recent of which was referred to a Select Committee before the resignation of the member in charge.

2. When this Bill was introduced it was explained that the large practical issues involved appeared to Government to require careful examination by an administrative committee before such legislation was undertaken; and Government have now decided to appoint a committee consisting of the following persons to examine the position:—

Mr. S. W. Goode, C.I.E., I.C.S., Chairman.

Members.

Mr. J. C. Mukerjea, Chief Executive Officer, Calcutta Corporation.
Mr. A. K. Fazlal Haque, M.L.C.
Lieut. Bejoy Prosad Singha Roy, M.L.C.
Mr. W. A. Burns, Deputy Chairman to the Commissioners for the Port of Calcutta.
Mr. F. Law.
Dr. Mohamad Hossain.
Mr. Unsud Dowla.
Mr. Phanindra Nath Brahma.

3. The terms of reference to the committee will be to consider the grievances put forward by the ratepayers of Garden Reach and advise on measures for their amelioration, whether by lowering the percentage of rates in this area, by separation from Calcutta, or otherwise, and on legislation, if any, necessary for the purpose.

4. The headquarters of the committee will be in Calcutta, where, as at present arranged, the committee is expected to assemble in July 1930.

Order—Ordered that this resolution be published in the *Calcutta Gazette* and copies thereof be forwarded to the Chairman and members of the committee.

By order of the Government of Bengal
(Ministry of Local Self-Government),

C. W. GURNER,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

NOTIFICATIONS.

No. 5T.I.—2nd June 1930.—In exercise of the powers conferred on him by sections 78 and 99 of Act III (B.C) of 1876, the Governor in Council proposes to pass the following rules and fix the undermentioned rates to be charged for water supplied from the Bakreswar Canal in the Birbhum district.

2. Notification No. 2-I., dated the 1st April 1930, on the subject published in the *Calcutta Gazette* in its issue of the 17th April 1930, and three successive issues, is hereby cancelled:—

Leases for a term of years.

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

I.—Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II.—All leases within one block shall be so granted that they may expire on the same date.

III.—No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any probability of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″ = 1 mile when such are available, and elsewhere at scale 16″ = 1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. The lands to be brought under lease shall be indicated on a copy of the map alluded to in rule 5.

7. On receipt of such approval the Subdivisional Canal Officer shall depute an amin to prepare the *khasra* or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and *khasra*. Should the survey map and *khasra* not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the *khasra*, the Subdivisional Canal Officer shall forward it to the Divisional Canal Officer for approval.

9. As soon as the *khasra* has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a *khatian* or abstract of the *khasra*, and shall have the form of application, given as Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No. II to these rules. This application must be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by

the Subdivisional Canal Officer. The signatures should be those of the leading cultivators in the block in question and they should represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June, may be presented at the Subdivisional Canal Office or to the Sectional Officer. They must be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer is empowered to give the required supply by rotation should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17. The rates due for water supplied shall be collected by the Subdivisional Canal Officer through his staff of tahsildars and peons. All *khatians* or demand statements shall be signed by the Subdivisional Canal Officer after scrutiny in his office.

18. At the time of preparation of the *khatian* in the Subdivisional Canal Officer's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. In regard to any proceedings taken under the Public Demands Recovery Act the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water.

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall in deciding the case give his reasons for or against assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged, subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or *khatian* shall be sent to the Subdivisional Canal Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Act shall count from the date on which the statement of the charge is furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or subordinate employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

25. Complaints or applications with respect to corrections of the assessment, with respect to the actions of the amins in assessing, and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Divisional Canal Officer.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

Remissions and Alterations of Demand.

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given in whole or in part by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than 15 days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause will only be allowed under the special orders of the Local Government.

Irrecoverable Demands.

37. The Superintending Engineer is empowered to sanction the write-off of those demands which are reported, after due enquiry by the Divisional Canal Officer, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Subdivisional Canal Officer shall select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) In the preparation of applications for leases.

(*ii*) In the measurement of irrigated lands.

(*vi*) In reporting to the Subdivisional Canal Officer any changes in the occupancy of lands under lease.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation which may lie within the boundaries of the leased area, subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Subdivisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases.

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with

effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous.

45. Tanks may be supplied with canal-water without charge, when water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule, may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Irrigation Act, as a place for relieving the calls of nature, is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

49. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

(1) *Enumeration of transferred units.*—When an Enumerator has been supplied with an enumeration-book, he shall retain it until he has completed the final enumeration, and, if his unit is transferred before the final enumeration from the Cantonment at which the preliminary enumeration was held, shall, notwithstanding the transfer, complete the final enumeration.

(2) Where the final enumeration is held in a Cantonment, other than the Cantonment in which the preliminary enumeration was held, the Enumerator shall be deemed to have been appointed by the Charge Superintendent of the Cantonment in which the final enumeration is held.

(3) Where the preliminary enumeration is held in a Cantonment, from which a unit is transferred before the final enumeration, a list of any persons included in the preliminary enumeration who have remained in the Cantonment at the time of transfer shall be prepared by the Enumerators concerned at the time of departure and made over to the Charge Superintendent, who shall make arrangements for their final enumeration. The Enumerators shall remove the names of such persons from their enumeration-books.

13. (1) *Operation subsequent to final enumerations.*—On the morning of the 27th of February 1931 in India and of the 25th February in Burma Enumerators shall assemble at a place and time to be fixed by their Census Supervisors and shall there complete the abstracts inside the covers of the enumeration-books showing the total number of—

(*a*) persons enumerated,

(*b*) males enumerated,

(*c*) females enumerated,

and shall make over the enumeration-books to the Census Supervisors.

(2) The Census Supervisors shall check the abstracts and compile them into a summary which they shall make over to the Charge Superintendent. They shall also make over the enumeration-books to him.

(3) The Charge Superintendent shall combine the summaries into a statement which he shall forthwith forward to the District or Political Officer as the case may be. He shall also as soon as possible pack and despatch the enumeration-books to that officer.

14. *Troops on the march or entrained.*—In the case of troops on the march or travelling by train, the Officer Commanding the detachment shall perform the duties imposed on the Charge Superintendent by rule 13:

Provided that he shall embody the statement in a telegram which shall also contain an advice of the place at which the final enumeration took place and a warning of the despatch of the enumeration-books, and shall despatch the telegram and the enumeration-books to the District or Political Officer within whose jurisdiction the final enumeration was held.

PART IV.

15. *Free supply of forms.*—The Civil Census authority shall arrange for the free supply of forms.

The 9th June 1930.

No. F. 45/6/30.—In exercise of the powers conferred by Section 15 of the Indian Census Act, 1929 (X of 1929), as in force in British India, and as locally applied, the Governor General in Council is pleased to make the following rules for the enumeration of Railway servants and other persons residing on railway premises and of persons travelling by railway.

Rules for the Census of Railways.

General.—The Census of persons in railway areas, *i.e.*—

A.—Persons residing on railway premises, and

B.—Persons travelling by railway on the night of the Census, will be carried out under the general direction of the Civil authorities as part of the District Census Operations in each British Province and State; the local railway officers co-operating with the District or State Officers and supplying, when necessary, the staff of Supervisors and Enumerators required for the enumeration of the railway colonies and settlements, railway stations and the travelling public. The provisions of the Provincial Census Codes dealing with the definition of Census terms, the description of the Census Enumeration Book, the organization of Census divisions, House-numbering, the instructions to the staff, the Preliminary and Final Enumeration and the collection and despatch of the Provisional Totals will be applicable to the Census of railway areas subject to any modification necessitated by the following additional rules.

2. *Definition of Railway Premises.*—Railway premises includes a railway station within distant signals, a workshop, a colliery, a steamer ghat and all other premises within railway boundaries, on which permanent or temporary employés of the railway reside.

3. *Appointment of a Railway Officer to co-operate with the District or State Authority.*—The Agent or Manager of each railway line will send to the Superintendent of Census Operations of each Province, Agency or State through which the line or a portion of the same passes not later than the 1st September 1930, a list of railway stations and other railway premises in each Civil District or State together with the name and designation of the local Railway Officer (preferably the District Traffic Superintendent or some other officer of that standing) who is nominated to assist each District or State Officer in the organization of the railway Census of the district or State.

4. *Duties of such Railway Officer.*—The local Railway Officer so nominated by the railway authorities under the previous rule will co-operate with the District Magistrates and the Census Officers of the

districts and States lying within his jurisdiction in regard to the Census arrangements of the railway areas in these districts and States and will furnish the District Magistrate or State Census Officer with any information the latter may require regarding such railway areas and the persons suitable to be appointed as Charge Superintendents, Supervisors or Enumerators.

A.—PERSONS RESIDING ON RAILWAY PREMISES.

5. *Organization of Railway Premises into Census Divisions.*—The organisation of the railway premises into Charges, Circles and Blocks will be undertaken by the District Magistrate or State Census Officer in co-operation with the local railway authorities. Large railway stations or settlements will form a Census Charge in themselves with the chief railway officer of the centre as Charge Superintendent who would correspond direct with the District or State Census Officer. Care must be taken that no railway Charge extends over more than one civil district or State. The ordinary railway settlement or station will be included in the civil Census Charge in which it lies, the Supervisor being generally the local station master who would work under the direction of the civil Charge Superintendent of the Charge in which his Circle lies. Signalmen, gangmen or gatemen living in small houses or huts, whether within or without the railway fences, will be included either in the nearest railway station Block or in one of the Blocks of the nearest village or town and enumerated along with the ordinary population of that Block.

6. *Registers and Forms.*—The railway Charges, Circles and Blocks will be entered up in the ordinary Charge Registers and Circle Registers of the district or State. The number of enumeration forms required will be included in the abstracts that are sent up from time to time under the provisions of the Census Code or in supplementary abstracts.

7. *Appointment and Training of Census Officers.*—Charge Superintendents (of purely railway Charges), Supervisors and Enumerators will ordinarily be employés of the railway residing in or near the areas with which they have to deal. They should be selected by the local railway authority but their formal appointment will be made under the signature of the District Magistrate or State Census Officer. Arrangements must be made to give them a thorough training in their duties and to supply them with the necessary rules.

B.—PERSONS TRAVELLING BY RAILWAY.

8. *Platform Enumeration.*—An official called the Platform Enumerator should be told off at each station, to enumerate all persons taking tickets at that station, or alighting from a train during the night of the 26th February 1931 in India and the night of the 24th February 1931 in Burma. Persons about to travel usually arrive at a station some time before their train is due; and they should, so far as possible, be enumerated by the Platform Enumerator before they enter the train unless they can show that they have already been enumerated. Each person so enumerated should be provided with a Pass to prevent his being counted again. Platform enumeration should commence at 7 P.M. and continue till 6 A.M., the hour at which train enumeration takes place.

All persons alighting from a train should be asked if they have been enumerated already, and, if they produce Passes or otherwise satisfy him that they have been, the Enumerator should let them go. He should fill up *all the columns* in the Schedule for each person who has not already been enumerated and give him a Pass, telling him to show it to any Enumerator who may wish to count him again.

9. *Train-Enumeration: Civil population.*—On the evening of the 26th February 1931 in India and the evening of the 24th February 1931 in Burma, the guard in charge of the train should distribute Household Schedules to all first and second class passengers and to all Europeans and Anglo-Indians travelling intermediate or third class, and request them to fill them in and give them up at any station at which they may alight during the night, or (if they do not alight) keep them till they are collected in the morning. The rest of the persons in the train will be enumerated on General Schedules as noted below.

All passengers who cannot produce Passes, and who do not appear to have been enumerated anywhere else must be counted at some station

at which the train can be stopped at or about 6 A.M. on the 27th February 1931 in India and the 25th February 1931 in Burma by one or more Train Enumerators selected from the local railway staff. A place should be chosen where the train can be timed to stop for a sufficient period, which should, if necessary, be slightly prolonged. Where the local staff is insufficient for the speedy enumeration of passengers at this halt, a few clerks should be sent temporarily from another station. Each compartment should remain locked until the enumeration of the persons in it has been completed. Passes need not be given on this occasion.

The Household Schedules given the evening before to first and second class passengers and others who have not alighted during the night should at the same time be collected and examined by an intelligent official, who should fill up the form for those who have omitted, or are unable, to do so for themselves. He should see that the Schedules thus collected are securely stitched into a Cover together with the General Schedules for the other passengers, thus forming a compact Enumeration Book for the train.

10. *Train-Enumeration*: *Troops.*—Troops travelling by rail on the night of the Census will be enumerated by their officers, and the return separately sent in, in accordance with the rules issued with the Home Department Notification No. F. 45/18/29-Pub., dated the 9th June 1930. But the Indian servants and followers travelling with them will be enumerated with the rest of the persons in the train, unless they have already been preliminarily enumerated and are accompanied by the forms then filled in, in which case their final enumeration will be carried out by the Officer Commanding troops to which they are attached.

11. *Provisional Totals.*—The Platform Enumeration and Train Enumeration should be treated as constituting separate Blocks of the Circle (station) at which the enumeration takes place. That is to say, the Enumeration Books containing the result of such enumeration should be included in the Census records of the Circle under the heading "Platform Enumeration" or "Train Enumeration," as the case may be. The Supervisor of the Circle should have the Enumerators' Abstracts prepared, showing the population of these special blocks, and should include the figures in his Circle Summary.

12. *Expenses.*—The necessary forms will be supplied by Government. The agency employed will consist chiefly of officials attached to the railway, who will not ordinarily receive any special remuneration for their services. Government will bear all charges in connection with the compilation of the results.

C.—SPECIAL ARRANGEMENTS.

13. *Lines under Construction.*—Arrangements for the Census of camps and collections of coolies on lines under construction will be made by the District Census Officer with the Engineer or other Railway Officer in charge of the work. The camp will be divided up into Circles or Blocks and the Supervisor and Enumerators selected in consultation with the Railway Officer in charge.

14. *Ballast Trains.*—Ballast trains are usually stabled for the night in or near some station. The guard should be made responsible for the enumeration and his train should form an extra Block of the station concerned. The record for these coolies should be prepared during the day time on the date of the Census and revised after dark.

Joint Secy. to the Govt. of India.

In exercise of the powers conferred by sub-section (2) of section 96-B of the Government of India Act, the Secretary of State in Council, with the concurrence of a majority of votes at a meeting of the Council of India held this 27th day of May 1930, hereby makes the following rules :—

PART I.—*General.*

1.—(1) These rules may be called the Civil Services (Classification, Control and Appeal) Rules.

(2) The Civil Services (Governors' Provinces) Classification Rules and the Civil Services (Governors' Provinces) Delegation Rules, 1926, are hereby cancelled.

2. For the purposes of these rules, unless there is anything repugnant in the subject or context,—

(*a*) "Government" means the Governor-General in Council or a Local Government as the circumstances require.

(*b*) Where a member of a service is referred to as appointed by an authority the reference is to the authority which appointed him to the service of which he is for the time being a member:

Provided that a member of a service who prior to his appointment to such service was appointed to the service of the Crown in India by an authority higher than the authority which appointed him to such service shall, if the higher authority so directs, be deemed for the purposes of these rules to have been appointed by the higher authority.

3. These rules shall apply to every person in the whole-time civil employment of a Government in India (other than a person so employed only occasionally or subject to discharge at less than one month's notice) except—

(*a*) persons for whose appointment and conditions of employment special provision is made by or under any law for the time being in force;

(*b*) railway servants as defined in section 3 of the Indian Railways Act, 1890, and other persons holding posts under the administrative control of the Railway Board or of the Financial Commissioner of Railways;

(*c*) persons in respect of whose conditions of service, pay and allowances and pension, or any of them, special provision has been made by agreement entered into in pursuance of the provisions of Rule 46:

Provided that in respect of any matter not covered by the provisions special to him, his service or his post, these rules shall apply to any person coming within the scope of exceptions (*a*) or (*c*) above to whom but for these exceptions the rules would otherwise apply:

Provided also that these rules shall apply to any person temporarily transferred to a service or post coming within exception (*b*) to whom, but for such transfer, these rules would otherwise apply.

4. Notwithstanding the provisions of the foregoing rule, the Government may by notification published in the Gazette of India or the local official Gazette:—(1) Exclude wholly or in part from the operation of these rules any ministerial or menial officer or class of officers to whom the Government shall declare that the rules cannot suitably be applied, and these rules shall thereupon, to the extent of such exclusion, cease to apply accordingly: (2) declare in respect of any person or group of persons that these rules shall not apply in whole or in part to such person or group and these rules shall thereupon cease to apply accordingly:

Provided that no declaration under sub-rule (2) of this rule shall be made in respect of any person who—

(*a*) holds a pensionable post; or

(*b*) holds a permanent whole-time post; or

(*c*) was appointed by the Secretary of State in Council or the Governor-General in Council, save by or with the sanction of the appointing authority.

5. If any doubt arises—

(*a*) as to whether these rules apply to any person, the matter shall be referred to the authority which appointed him:

(*b*) as to whether any person to whom these rules apply belongs to a particular service, the matter shall be referred to the controlling authority of that service;

(*c*) as to which of two or more services is the service to which a person to whom these rules apply belongs, the matter shall be referred to the highest authority among the controlling authorities of the services concerned;

and, in each case, the decision of the authority to whom the matter is referred shall be final.

6. The decision of the Secretary of State in Council shall be final on any question whether any rule, purporting to be made in exercise of the powers conferred by these rules, was validly made or contravenes any of the provisions of these rules, and the authority by which the rule was made shall give effect to any orders which may be passed by the Secretary of State in Council thereon.

7. Where by these rules power is delegated to, or conferred upon, any authority to make rules regulating the classification, the methods of recruitment, the conditions of service, the pay, allowances and pensions, or the discipline and conduct of any class of the Civil Services specified in Rule 14, the rules, notifications, and orders, by whatsoever authority made, regulating these matters in respect of that class which were in operation on the date these rules were made shall remain in operation except in so far as they may be inconsistent with these rules or may be specifically cancelled or modified in exercise of the aforesaid power by the authority to which it is delegated.

8. Nothing in these rules or in any rule made thereunder shall operate to deprive any person of any right or privilege to which he is entitled—

(*a*) by or under any law, or

(*b*) by the terms of any contract or agreement subsisting between such person and Government on the date these rules came into force.

9. (1) Subject to the provisions of Rule 8, nothing in any rule made under these rules shall operate to affect to the disadvantage of any person to whom these rules apply, the conditions of service in respect of pay, allowances, pensions or any other matter which are applicable to him—

(*a*) on the date these rules came into force, or

(*b*) by virtue of any order or rule made by the Secretary of State in Council,

unless—

(*i*) the rule has been made with the previous sanction of the Secretary of State in Council, or

(*ii*) the authority which made the rule had power on the 8th day of March 1926 to make it, or

(*iii*) such person gives his consent.

(2) For the purpose of this rule, a person who was holding a post on the aforesaid date, in an officiating or provisionally substantive capacity, and has been subsequently confirmed in such post without having reverted therefrom, shall be deemed to have been holding that post on that date.

10. Nothing in these rules or in any rule made under them shall be construed as authorising a Government otherwise than with the previous sanction of the Secretary of State in Council—

(1) to create a permanent post on a maximum rate of pay exceeding Rs. 3,000 a month or to increase the maximum pay of a sanctioned permanent post to an amount exceeding Rs. 3,000 a month;

(2) to create or continue a temporary post for a period exceeding six months if the pay of the post exceeds Rs. 4,000 a month, or for a period exceeding three years if the pay of the post exceeds Rs. 3,000 a month.

11. Nothing in these rules should be construed as authorising a local Government otherwise than with the pervious sanction of the Governor-General in Council to institute or make rules regulating any Provident Fund.

12. Any rule made by a Government in exercise of power delegated under these rules may, for reasons to be recorded in writing, be relaxed in individual cases in which that Government is satisfied that a strict application of the rule would cause hardship to the individual concerned, but no such relaxation shall be made without the concurrence in writing of the Governor, or the Governor-General as the case may be.

13. (1) The local Legislature of any Governor's province is hereby authorised to make laws for the establishment, and for determining the functions, of a Commission to regulate the public services of the province; but any such law shall be subject to the provisions of any rules made by the Secretary of State in Council under sub-section (2) of section 96B or section 96C of the Government of India Act for the time being in force, whether made before or after its enactment, and, if it is at the time of its enactment, or thereafter becomes, repugnant to any such provision, shall, to the extent of that repugnancy, be void.

(2) No law enacted under the authority of this rule shall provide—

(*a*) for the appointment or renewal of the appointment of any member of such Commission by any authority other than the Governor in Council, the Governor-General in Council, or the Secretary of State in Council; or

(*b*) for the exercise by the Commission with reference to any person in the Civil Service of the Crown in India, other than a member of a provincial or subordinate service, or the holder of a special post under the administrative control of the Local Government—

(*i*) of any function in regard to disciplinary cases;

(*ii*) of any other function save with the general or special approval of the Secretary of State in Council in the case of persons appointed by him and of the Governor-General in Council in other cases.

(2) The Local Government of a Governor's Province may make rules to regulate the conduct of members of the Provincial Services, Specialist Services and Subordinate Services, under its administrative control:

Provided that no rule made in exercise of the power delegated by this rule shall contravene any provision contained in any rules made by the Secretary of State in Council which have been declared under Rule 47 to be applicable to the service concerned.

49. The following penalties may, for good and sufficient reason and as hereinafter provided, be imposed upon members of the services comprised in any of the classes (1) to (5) specified in Rule 14, namely:—

(*i*) Censure.

(*ii*) Withholding of increments or promotion, including stoppage at an efficiency bar.

(*iv*) Recovery from pay of the whole or part of any pecuniary loss caused to Government by negligence or breach of orders.

(*v*) Suspension.

(*vi*) Removal from the civil service of the Crown, which does not disqualify from future employment.

(*vii*) Dismissal from the civil service of the Crown, which ordinarily disqualifies from future employment.

Explanation.—The discharge—

(*a*) of a person appointed on probation, during the period of probation,

(*b*) of a person appointed otherwise than under contract to hold a temporary appointment, on the expiration of the period of the appointment,

(*c*) of a person engaged under contract, in accordance with the terms of his contract,

50. No member of an All-India Service, and no person holding the King's Commission or appointed by the Secretary of State in Council shall be removed or dismissed except by order of the Secretary of State in Council.

51. No officer holding the King's Commission on the active list of the Regular Army and the Royal Indian Marine shall be reverted from his civil employment except by order of the Governor-General in Council.

52. Subject to the provision of these rules, the Governor-General in Council or the Local Government of a Governor's Province may impose—

(*a*) any of the penalties specified in clauses (*i*) to (*v*) of Rule 49 on any person included in any of the classes (1) to (5) specified in Rule 14 who is serving under the administrative control of the Governor-General in Council or the Local Government, as the case may be,

(*b*) the penalty specified in clause (*vi*) or in clause (*vii*) on any such person not being one of those referred to in Rule 50.

53. Subject to such conditions, if any, as he may prescribe, the Governor-General in Council may delegate—

Provided that, when such rules empower a subordinate authority to impose a penalty, provision shall be made in the rules for at least one appeal to a higher authority from an order imposing such penalty.

55. Without prejudice to the provisions of the Public Servants Inquiries Act, 1850, no order of dismissal, removal or reduction shall be passed on a member of a service (other than an order based on facts which have led to his conviction in a criminal court) unless he has been informed in writing of the grounds on which it is proposed to take action, and has been afforded an adequate opportunity of defending himself. The grounds on which it is proposed to take action shall be reduced to

the form of a definite charge or charges, which shall be communicated to the person charged together with a statement of the allegations on which each charge is based and of any other circumstances which it is proposed to take into consideration in passing orders on the case. He shall be required, within a reasonable time, to put in a written statement of his defence and to state whether he desires to be heard in person. At that inquiry oral evidence shall be heard as to such of the allegations as are not admitted, and the person charged shall be entitled to cross-examine the witnesses, to give evidence in person and to have such witnesses called, as he may wish, provided that the officer conducting the inquiry may, for special and sufficient reason to be recorded in writing, refuse to call a witness. The proceedings shall contain a sufficient record of the evidence and a statement of the findings and the grounds thereof.

This rule shall not apply where the person concerned has absconded, or where it is for other reasons impracticable to communicate with him. All or any of the provisions of the rule may, in exceptional cases, for special and sufficient reasons to be recorded in writing, be waived, where there is a difficulty in observing exactly the requirements of the rule and those requirements can be waived without injustice to the person charged.

and after such consideration shall pass such order as it thinks proper.

60. In the case of an appeal against an order under Rule 58, the appellate authority shall pass such order as appears to it just and equitable, having regard to all the circumstances of the case.

61. An authority from whose order an appeal is preferred under these rules shall give effect to any order made by the appellate authority.

62. Every person preferring an appeal shall do so separately and in his own name.

63. Every appeal preferred under these rules shall contain all material statements and arguments relied on by the appellant, shall contain no disrespectful or improper language, and shall be complete in itself. Every such appeal shall be submitted through the head of the office to which the appellant belongs or belonged and through the authority from whose order the appeal is preferred.

64. An appeal may be withheld by a Local Government or the Governor-General in Council if—

(1) it is an appeal in a case in which under these rules no appeal lies, or

(2) it does not comply with the provisions of Rule 63 or

(3) it is not preferred within six months after the date on which the appellant was informed of the order appealed against, and no reasonable cause is shown for the delay, or

(4) it is a repetition of a previous appeal and is made to the same appellate authority by which such appeal has been decided, and no new facts or circumstances are adduced which afford grounds for a reconsideration of the case.

Provided that in every case in which an appeal is withheld the appellant shall be informed of the fact and the reasons for it:

Provided also that an appeal withheld on account only of failure to comply with the provisions of Rule 63 may be resubmitted at any time within one month of the date on which the appellant has been informed of the withholding of the appeal, and, if resubmitted in a form which complies with those provisions, shall not be withheld.

65. No appeal shall lie against the withholding of an appeal by a competent authority.

66. Every appeal from a person serving under a Local Government to the Governor-General in Council or the Secretary of State in Council which is not withheld under these rules shall be forwarded by the Local Government to the Governor-General in Council with an expression of opinion. Every appeal to the Secretary of State in Council which is received by the Governor-General in Council from a Local Government or from the head of a department under the Governor-General in Council and which is not similarly withheld shall be transmitted by the Governor-General in Council with an expression of his opinion:

Provided that appeals to the Secretary of State in Council presented through the Local Government of Madras, or of Bombay or of Bengal, which are not withheld under these rules, shall be forwarded direct to the Secretary of State in Council by the Local Government unless the appeal relates to a case which has previously been under the consideration of the Governor-General in Council, in which case it shall be forwarded to the Governor-General in Council.

67. The Local Government shall forward quarterly to the Governor-General in Council a list of appeals to the Governor-General in Council or the Secretary of State in Council which have been withheld by the Local Government together with the reasons for withholding the same. The Governor-General in Council shall in the same manner forward quarterly to the Secretary of State a list of appeals to the Secretary of State in Council which have been withheld by a Local Government or by the Governor-General in Council.

68. The Secretary of State in Council may call for any appeal withheld by a Local Government or the Governor-General in Council which under these rules may be made to him, and may pass such orders thereon as he considers fit; and the Governor-General in Council may call for an appeal withheld by a Local Government which under these rules may be made to him, and may pass such orders thereon as he considers fit.

69. Nothing in these rules shall operate to deprive any person of any right of appeal, which he would have had if these rules had not been made, in respect of any order passed before they came into force. An appeal pending at the time when, or preferred after, these rules came into force shall be deemed to be an appeal under these rules, and Rules 59 or 60 (as the case may be) and 61 shall apply as if the appeal were against an order appealable under these rules.

The list of books published along with the abovementioned notification is hereby cancelled.

The present list may be adopted for the instruction of Moslem pupils in schools in which the number of such pupils is more than 50 per cent. of the roll number.

From that date the five classes of Maktabs will be called the Infant class and classes I—IV. This nomenclature has been adopted in the present list.

District Boards are requested to choose books from the following list for use in Maktabs under their control. In making this choice, it is hoped that care will be taken to ensure that undue patronage of either individual authors or publishing houses is avoided. Inspecting Officers should not themselves recommend books directly to Primary Schools.

Calcutta.—No. 859T.R.—26th June 1930.—The following agreement is published under section 42 of the Land Acquisition Act, I of 1894, for general information:—

Stamped Twelve Annas.

Agreement.

Memorandum of agreement made this 26th day of June one thousand nine hundred and thirty between the Jatiya Ayurbijnan Parishad, a society registered under Act XXI of 1860 and having its registered office at 24, Gorachand Road in the city of Calcutta (hereinafter called the Parishad) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part. Whereas for the purpose of the extension of the Chittaranjan Hospital and the accommodation of the National Medical Institute the Parishad has applied to the Government of Bengal for the acquisition under the provisions of the Land

Acquisition Act, 1894, of the piece or parcel of land containing 3·0942 acres or thereabout situate in Ward No. 20 of the Calcutta Municipality in the city of Calcutta and more particularly described in the Schedule hereto and delineated in the plan* hereunto annexed. And whereas the said Government of Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Parishad the piece or parcel of land hereinbefore described. And whereas the said Government of Bengal has required the Parishad under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows:—

1. On demand the Parishad shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

On demand made by the said Collector the obligations of the Parishad under the last preceding clause not being thereby limited the Parishad shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the Parishad of all demands under the foregoing first clause, or, in the discretion of the said Government of Bengal (on deposit by the Parishad of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the abovementioned Act, the Secretary of State shall make over possession of the said land to the Parishad and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Parishad.

Should the said works be not completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twelve consecutive months to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause, then and in any such case, the said Government may summarily re-enter upon and take possession of the said land together with all buildings thereon, whether such buildings were erected before or after transfer of the land to the Parishad, and thereupon the interest of the Parishad in the said land and buildings shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(*i*) Should the said Government sell the land with the buildings, the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Parishad.

(*ii*) Should the said Government decide not to sell the land and buildings, the said Government shall retain the said land and buildings thereon, in which case the Secretary of State shall repay to the Parishad the market value as on the day of re-entry of all the buildings erected by the Parishad and all sums received from the Parishad in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received on account of trees and buildings which are not in existence at the time of resumption), but will not repay and sums paid and received on account of costs, charges and expenses.

(*iii*) Should the said Government decide to sell the buildings only, upon such sale the Secretary of State after deducting the expenses of taking possession and selling, pay the balance of the proceeds of sale to the Parishad together with the sum received from the Parishad in respect of the compensation for the land (less the statutory allowance of 15 per cent. and less any amount received from the Parishad on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sum paid and received on account of costs, charges and expenses.

Rules for the Census of Inland Steamers.

1. **General.**—It is necessary to arrange for the census of—

(1) steamers belonging to private persons;

(2) steamers of companies operating within a single district or over a restricted area; and

(3) passenger, mail and cargo steamers, flats and barges belonging to companies which operate over an extended area.

2. **Steamers of private persons.**—The district census staff will be responsible for the census of steamers kept for the use of private individuals, and arrangements will be made under the ordinary procedure by the district census officer. Their enumerations will ordinarily fall to the enumerator of the block containing the *ghats* to which they are moored.

3. **Steamers of companies operating in a restricted area.**—The district census staff will also be responsible for the enumeration of steamers of companies which operate in one district or in a restricted area. Such companies will furnish to the Superintendent of Census

Operations, Bengal, by the 1st December 1930, a statement in the following form:—

Steamer Form 1.

Extract from this statement will be forwarded by the provincial superintendent to district census officers intimating the names of the steamers which they should enumerate.

4. **Mail, passenger and cargo steamers, flats, barges, etc., of companies operating in an extended area.**—(*1*) The following arrangements for craft of companies which operate in an extended area will apply to vessels of the following companies and such others as the Superintendent of Census Operations, Bengal, may decide:—

(*i*) The India Navigation and Railway Company, Limited;
(*ii*) The Rivers Steam Navigation Company, Limited;
(*iii*) The East Bengal River Steam Service, Limited;
(*iv*) The Bengal Assam Steamship Company, Limited; and

(*3*) The census of all other vessels of these companies will be taken by enumerators appointed under the Census Act upon the nomination of the company concerned. The enumerators will ordinarily be steamer clerks or other qualified employees of the company. Forms and printed instructions will be distributed through the head office of the company. To enable the provincial superintendent to calculate the number of forms required the companies will furnish to him by the 15th December a statement in the following form:—

Steamer Form 2.

CENSUS OF 1931.

Statement of steamers, flats, barges, etc., of the.....Company.

Note.—All steamers, flats, barges, pontoons, etc., of the company are to be noted below except such as are permanently moored to the bank or anchored and used as landing stages, jetties, workshops, offices, residences, etc.

Name of Service..... Plying from..... to .....

1	2	3	4	5	6	7	8	9

(*4*) In order to make sure that the steamer enumerators clearly understand their duties, arrangements will be made to train them at one or two points at which the steamers usually stop for several hours. They should be instructed in the manner of filling in schedules and should also be made to understand the provisions of sub-clauses (*5*) to (*7*) below.

(*5*) The census will be taken on the night of the 26th February. The enumeration of all Europeans and first class passengers will be effected on household schedules to be filled in by themselves. That of all others, both passengers and crew, will be taken in the book of schedules by the steamer enumerator.

(*6*) To reduce, as much as possible, the work to be done on the census night, the necessary entries for the crew should be made a few days beforehand. These entries should be tested at one of the places referred to in sub-clause (*4*) above, and supervisors and inspecting officers in whose areas these places fall should make special efforts to test as many of these preliminary records as possible. The record for passengers who will remain on the steamer until after 7 p.m. should be prepared on the 26th February during the day. The record thus made will be brought up to date after dark the same evening, when the entries relating to any persons who have died or gone away before 7 p.m. will be struck out and the necessary particulars will be entered for persons who have since come on board. Persons alighting from a steamer after 7 p.m. should be furnished with travellers' tickets as a proof that they have already been enumerated, and to prevent double enumeration persons boarding the steamer after that hour should be enumerated, unless they can prove by the production of a travellers' ticket or otherwise that they have already been enumerated ashore.

(*7*) On the morning of the 27th February the steamer enumerator should collect and stitch into his enumeration book any household schedules issued on board. The abstract at the end of the enumeration book should be filled in, and the name of the first landing-*ghat* reached that morning should be noted on the cover. The book should be made over to the enumerator of this *ghat*, who will pass it on to his supervisor to be forwarded under arrangements previously made to the district census officer in whose jurisdiction the *ghat* lies. The fact that the steamer enumeration book has been handed over to the enumerator on shore will be reported by the steamer enumerator to the head office of the company on a printed post card as follows:—

Steamer Form 3.

CENSUS OF 1931.

Name of steamer (or flat, barge, pontoon, etc.).....

Locality in which it was on the night of 26th February..... .....

Enumeration book to whom delivered.....

Population enumerated on board:—

Males.....

Females.....

Total.....

The same procedure will be adopted in the case of all vessels shown in the statement (Steamer Form 2) which were neither permanently moored or anchored nor on the move during the evening of the 26th February, but were *temporarily* moored or anchored. The steamer company's employee who enumerates them will hand over his enumeration book to the *ghat* enumerator of the nearest landing stage and send off the post card (Steamer Form 3) to the head office of the company immediately on the early morning of the 27th February.

(8) These particulars will be entered at the head office in a statement in the following form:—

I.—Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II.—All leases within one block shall be so granted that they may expire on the same date.

III.—No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any probability of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″=1 mile when such are available, and elsewhere at scale 16″=1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land

in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. The lands to be brought under lease shall be indicated on a copy of the map alluded to in rule 5.

7. On receipt of such approval the Subdivisional Canal Officer shall depute an amin to prepare the *khasra* or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and *khasra*. Should the survey map and *khasra* not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the *khasra*, the Subdivisional Canal Officer shall forward it to the Divisional Canal Officer for approval.

9. As soon as the *khasra* has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a *khatian* or abstract of the *khasra*, and shall have the form of application, given as Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No. II to these rules. This application must be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures should be those of the leading cultivators in the block in question and they should represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June, may be presented at the Subdivisional Canal Office or to the Sectional Officer. They must be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer is empowered to give the required supply by rotation should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17. The rates due for water supplied shall be collected by the Subdivisional Canal Officer through his staff of tahsildars and peons. All *khatians* or demand statements shall be signed by the Subdivisional Canal Officer after scrutiny in his office.

18 At the time of preparation of the *khatian* in the Subdivisional Canal Officer's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. In regard to any proceedings taken under the Public Demands Recovery Act the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water.

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall in deciding the case give his reasons for or against assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged, subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or *khatian* shall be sent to the Subdivisional Canal Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Act shall count from the date on which the statement of the charge is furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorised use or the waste of water have occurred through the act or neglect of a Canal Officer or subordinate employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

25. Complaints or applications with respect to corrections of the assessment, with respect to the actions of the amins in assessing, and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Divisional Canal Officer.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

Remissions and Alterations of Demand.

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given in whole or in part by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than 15 days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause will only be allowed under the special orders of the Local Government.

Irrecoverable Demands.

37. The Superintending Engineer is empowered to sanction the write-off of those demands which are reported, after due enquiry by the Divisional Canal Officer, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Subdivisional Canal Officer shall select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) In the preparation of applications for leases.

(*ii*) In the measurement of irrigated lands.

(*iii*) In recording the names of the occupiers of the holdings.

(*iv*) In receiving demand statements and distributing to the cultivator the individual notices of assessment.

(*v*) In attending, when required, at enquiries into complaints.

(*vi*) In reporting to the Subdivisional Canal Officer any changes in the occupancy of lands under lease.

(*vii*) In assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation which may lie within the boundaries of the leased area, subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Subdivisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases.

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous.

45. Tanks may be supplied with canal-water without charge, when water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

(*i*) That the water is to be exclusively used for domestic purposes, or for watering cattle.

(*ii*) That a channel exists through which water can pass without waste.

(*iii*) That the water shall only be supplied on the written order of the Subdivisional Canal Officer.

(*iv*) That any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water.

(*v*) That the supply of water may be stopped at any time if it is found that it is being misused.

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule, may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Irrigation Act, as a place for relieving the calls of nature, is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

48. Should water be required for purposes other than irrigation, it may be supplied when available at a rate of one rupee per 10,000 cubic feet of water.

49. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

(2) The Law of Torts and the Law of Crimes under the Hindu system.

(3) Place of Women in Hindu Law (with particular reference to Dayabhaga) in relation to property as compared with the place of women in English Law.

The attention of the intending candidates is expressly called to the following conditions laid down for the prize :—

(*i*) By Comparative Indian Law shall be meant the Hindu Smriti Sastra called "Byabaharkhanda" and a comparison of the standard Sanskrit authorities on the subject with British Indian Law as contained in Parliamentary Statutes, Regulations and Acts of the Indian Legislative Council, and the law as laid down in leading cases. The study, which it shall be the object of the prize to encourage, is the history of the Hindu Smriti Sastra as it existed at and from the time when India came under British Rule and how and to what extent it has been altered under British influence, regard being had not only to the existing Statutes, Regulations and Acts, but also to those which, having been in operation for a time, have now been repealed or become obsolete and regard being also had not only to the existing leading cases, but to cases which were considered leading at one time, but have now been overruled, and how and to what extent such alteration has affected Hindu society.

(*ii*) The essay may deal with the whole of the Indian Comparative Law as before defined or with part or parts thereof; but in no case shall an essay be entitled to competition which in any way attacks the religious belief, usages or institution of His Majesty's subject.

(*iii*) By Adhyapak shall be meant scholars of the Smriti Sastra, students of the Smriti in the Government Sanskrit College in Calcutta, and in the *tols* of indigenous Brahmanical schools which send in candidates for the title examinations held in that College, and students in other similar institutions in India.

(*iv*) Every candidate for the prize shall be required to indicate generally in a preface to his thesis, and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portion of the thesis which he claims as original. He shall further be required to state whether his research has been conducted independently, under advice or in co-operation with others, and in what respects his investigations appear to him to tend to the advancement of knowledge.

(*v*) Successful candidates shall be required to publish their essays, and if necessary they shall receive help from the University for the purpose.

Simla, the 2nd July 1930.

No. D.-4332/30.—The following Statement is published for general information:—

A Statement by His Excellency the Governor General of the reasons which have moved him in exercise of the powers conferred upon him by section 72 of the Government of India Act to make and promulgate an Ordinance to make provision for the control of unauthorised news-sheets and newspapers under the title of the Unauthorised News-sheets and Newspapers Ordinance, 1930.

H. W. EMERSON,
Secy. to the Govt. of India.

STATEMENT.

Since the issue of the Press Ordinance, organised attempts have been made to defeat its provisions and continue the mischievous activities against which it was directed by the issue of bulletins and news-sheets produced by cyclostyle and other simple processes. These publications are devoted without disguise to the promotion of sedition, the dissemination of false and malicious news, and the instigation of the public to the defiance of the law. Experience has shown that the remedies at present available against the publication of these bulletins and news-sheets are only partial and it has not been found possible to check effectively their output. This can only be done by taking power to forfeit copies of such news-sheets, and of newspapers which have not complied with the provisions of the Press Ordinance and also to forfeit the machines other than declared presses on which they are produced. I have accordingly felt it my duty to promulgate an Ordinance which will enable more effective and speedy control to be exercised in these matters.

2. The Ordinance will not affect in any way any press or newspaper which conforms to the provisions of the Press Ordinance and of the Press and Registration of Books Act, 1867, nor does it impose on them any fresh restriction. It includes a simple procedure whereby those who desire to publish news-sheets of an unobjectionable character may obtain the requisite authority.

The Ordinance is a measure of emergency and will lapse when the Press Ordinance ceases to be in force.

W. S. HOPKYNS,
Chief Secy. to the Govt. of Bengal.

Report.

In the Court of the Commissioners appointed under rule 36 (2) (a) of the Bengal Electoral Rules.

In the matter of the election petition of Maharaja Shashi Kanta Acharyya Chaudhuri, petitioner,

versus

(1) Satish Chandra Ray Chaudhuri, (2) Rai Bahadur Umesh Chandra Chakladar and (3) Padmini Mohan Neogy, respondents.

Present:

A. G. R. Henderson, Esq., I.C.S., President.
Diwan Bahadur Sarada Prosad Sen, Commissioner.
Babu Ashutosh Ghosh, Commissioner.

This petition has been filed by the Maharaja Shashi Kanta Acharyya Chaudhuri of Mymensingh. His nomination papers were rejected by the Returning Officer at the scrutiny. The only other candidate was the contesting respondent No. 1 Babu Satish Chandra Ray Chaudhuri who was declared to be duly elected.

At the framing of issues the question was raised whether before the petitioner signed the nomination paper there was a discussion, in the course of which certain gentlemen requested him to stand for the Mymensingh East Non-Muhammadan constituency, and he agreed to this proposal. At the time we entertained

some doubt as to the relevancy of this, and decided that special costs would be placed upon this issue. The case of the petitioner is that there was such a conversation: on the other hand, the contesting respondent maintains that the story was subsequently concocted for the purpose of this case. The learned Advocate who appeared for the respondent has failed to satisfy us that it makes the slightest difference whether such a conversation took place or not.

Provided that the nomination paper was properly filled in and filed, it does not matter whether there was a previous conversation between the candidate and some of his supporters, in the course of which he was asked to stand for the constituency. The question of fact raised in this issue is therefore quite irrelevant and we leave it undecided.

The case turns upon the question whether the Returning Officer acted correctly in rejecting the nomination papers filed on behalf of the petitioner. In this connection we wish to refer to the provisions of rule 11 (*3*) of the Bengal Electoral Rules, 1926. Before the Returning Officer can find that a candidate is qualified to stand for election he must have presented to him a nomination paper completed in the form prescribed in schedule III. There must be a duly qualified proposer and seconder and the nomination must be for a definite constituency. In the second place, there must be a declaration subscribed by the candidate himself assenting to the nomination.

In the present case two nomination papers were filed (Exhibit 2 and Exhibit 7). We can dispose of the latter in a few words. The declaration was not subscribed by the candidate himself but by his Ammuktear Babu Sasanka Mohan Ghosh. The validity of this in no way depends upon whether it was done at the suggestion of the petitioner's legal advisers because they entertained doubts as to the validity of Exhibit 2. In our opinion this declaration must be subscribed by the candidate himself, and we are not prepared to accept the contention of the petitioner that this can be done by an agent.

The Returning Officer rejected the nomination paper (Exhibit 2) on the ground that it was signed by the candidate before there was an actual vacancy. This ground was supported before us on behalf of the respondent, but not by the learned Government Pleader who appeared on behalf of the Advocate-General. The rules provide a date after which a nomination paper cannot be filed, but they do not provide any date before which it cannot be completed. If there were such a date it would lead to difficulties. The learned Advocate who appeared for the respondent had great difficulty in deciding whether he would select the date on which the vacancy occurred or the date of the notification as the one before which no nomination paper could be filled in: there is really no logical reason for selecting either of them. On the whole we are of opinion that there is nothing to prevent a nomination paper from being filled up before the existence of a vacancy, and we think that this was the view taken by the Commissioners who heard the election petition of Rai Prasanna Kumar Das Gupta Bahadur *vs.* Mr. C. R. Das. *See* Hammond Indian Election Petitions, 1925. Volume II, page 185.

In dealing with this point we must emphasise again that it is necessary for the candidate to subscribe a declaration that he accepts the nomination, and in the present case we are not satisfied that this was done. The petitioner signed his name on Exhibit 2, which was otherwise blank, before leaving for Europe. The name of the constituency was not filled in and the nomination paper might have been used for any constituency in the province. It is impossible to infer from a mere signature on a blank paper that he accepted the proposal to stand for this constituency. That he did not do so is apparent from the fact that his friends thought it necessary to cable to him on the subject. If, in fact, there had been any definite acceptance, it would not have been necessary to send any cable at all. Apart from this the only evidence to show that the nomination was accepted consists of a cable sent by the petitioner (Exhibit 5), which is in these terms "Prefer East. Consult friends. Else Dacca." Whatever this may mean exactly, it certainly does not mean that the nomination for this constituency was accepted: there was still a doubt in the mind of the petitioner and he thought consultation amongst his friends advisable. We have no evidence to show that as a result of this consultation the matter was put before him again and that he accepted the nomination. The person in the best position to prove this acceptance would undoubtedly be the petitioner himself and he has not come forward to give any evidence. We, therefore, find it quite impossible to hold that he ever agreed to the nomination (Exhibit 2). As we are not satisfied that he agreed to the nomination we are of opinion that the paper was properly rejected.

This is sufficient to dispose of the case and it is not necessary to enter into the other questions raised. In our opinion, Babu Satish Chandra Ray Chaudhuri was duly elected and the petition should be dismissed.

With regard to costs the petitioner, having failed, should pay costs to the contesting respondent: the contesting respondent should pay the petitioner costs on account of the issue which was improperly raised. The petition raised an important question of law and we required the assistance of the learned Government Pleader acting under the instructions of the Advocate-General. We derived material assistance from his argument and we consider that the petitioner should pay his costs.

We note our detailed recommendation as to costs—

To be paid by the petitioner to the respondent Babu Satish Chandra Ray Chaudhuri a consolidated sum of Rs. 150 for the whole case.

To be paid by Babu Satish Chandra Ray Chaudhuri to the petitioner on account of issue No. 1 Rs. 50.

To be paid by the petitioner to Rai Sarada Charan Ghosh Bahadur, acting under the instructions of the Advocate-General, Rs. 300.

COMMERCE DEPARTMENT.

CALCUTTA, THE 8TH JULY 1930.

RESOLUTION—No. 3395Com.

The Government of Bengal have had under consideration certain practical difficulties that have arisen in connection with the grant of licenses to supply electricity under the Indian Electricity Act, 1910, and the subsequent successful working of the licensed undertakings. Having in view the interests of the public as well as those of the applicants themselves, Government have decided *inter alia* that in future no application for a license will be proceeded with until the applicant has been able to satisfy Government regarding (*a*) his ability either to provide or obtain adequate finance on terms which will not militate against the successful running of the undertaking, (*b*) his ability to evolve a practicable scheme and put it into operation under competent technical supervision, and (*c*) his intention to maintain a substantial interest in the undertaking after it has been started.

These conditions will not preclude the conversion of an undertaking into a limited liability company, but the Memorandum and Articles of Association of any such proposed company will be subject to scrutiny by Government before the transfer of a license to a company is sanctioned.

Intending applicants are accordingly advised to approach Government in the first instance with satisfactory evidence of financial stability or prospects before incurring the expense of preparing a draft license and publishing it, or preparing a detailed scheme.

ORDER—Ordered that this resolution be published in the *Calcutta Gazette* and that copies be supplied to the Press.

By order of the Governor in Council,

E. N. BLANDY,

Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

NOTIFICATIONS.

[Third publication.]

No. 5T.I.—2nd June 1930.—In exercise of the powers conferred on him by sections 78 and 99 of Act III (B.C.) of 1876, the Governor in Council proposes to pass the following rules and fix the undermentioned rates to be charged for water supplied from the Bakreswar Canal in the Birbhum district.

2. Notification No. 2-I., dated the 1st April 1930, on the subject published in the *Calcutta Gazette* in its issue of the 17th April 1930, and three successive issues, is hereby cancelled:—

Leases for a term of years.

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

I.—Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II.—All leases within one block shall be so granted that they may expire on the same date.

III.—No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any probability of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″ = 1 mile when such are available, and elsewhere at scale 16″ = 1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land

in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. The lands to be brought under lease shall be indicated on a copy of the map alluded to in rule 5.

7. On receipt of such approval the Subdivisional Canal Officer shall depute an amin to prepare the *khasra* or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and *khasra*. Should the survey map and *khasra* not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the *khasra*, the Subdivisional Canal Officer shall forward it to the Divisional Canal Officer for approval.

9. As soon as the *khasra* has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a *khatian* or abstract of the *khasra*, and shall have the form of application, given as Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No. II to these rules. This application must be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures should be those of the leading cultivators in the block in question and they should represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June, may be presented at the Subdivisional Canal Office or to the Sectional Officer. They must be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer is empowered to give the required supply by rotation should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17. The rates due for water supplied shall be collected by the Subdivisional Canal Officer through his staff of tahsildars and peons. All *khatians* or demand statements shall be signed by the Subdivisional Canal Officer after scrutiny in his office.

18. At the time of preparation of the *khatian* in the Subdivisional Canal Officer's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. In regard to any proceedings taken under the Public Demands Recovery Act the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water.

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall in deciding the case give his reasons for or against assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged, subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or *khatian* shall be sent to the Subdivisional Canal Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Act shall count from the date on which the statement of the charge is furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or subordinate employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

25. Complaints or applications with respect to corrections of the assessment, with respect to the actions of the amins in assessing, and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Divisional Canal Officer.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

Remissions and Alterations of Demand.

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given in whole or in part by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than 15 days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause will only be allowed under the special orders of the Local Government.

Irrecoverable Demands.

37. The Superintending Engineer is empowered to sanction the write-off of those demands which are reported, after due enquiry by the Divisional Canal Officer, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Subdivisional Canal Officer shall select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) In the preparation of applications for leases.

(*ii*) In the measurement of irrigated lands.

(*iii*) In recording the names of the occupiers of the holdings.

(*iv*) In receiving demand statements and distributing to the cultivator the individual notices of assessment

(*v*) In attending, when required, at enquiries into complaints.

(*vi*) In reporting to the Subdivisional Canal Officer any changes in the occupancy of lands under lease.

(*vii*) In assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation which may lie within the boundaries of the leased area, subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Subdivisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases.

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous.

45. Tanks may be supplied with canal-water without charge, when water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

(*i*) That the water is to be exclusively used for domestic purposes, or for watering cattle.

(*ii*) That a channel exists through which water can pass without waste.

(*iii*) That the water shall only be supplied on the written order of the Subdivisional Canal Officer.

(*iv*) That any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water.

(*v*) That the supply of water may be stopped at any time if it is found that it is being misused.

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule, may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Irrigation Act, as a place for relieving the calls of nature, is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

48. Should water be required for purposes other than irrigation, it may be supplied when available at a rate of one rupee per 10,000 cubic feet of water.

49. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

RESOLUTION ON THE REPORT ON THE WORKING OF THE CO-OPERATIVE SOCIETIES IN THE PRESIDENCY OF BENGAL FOR THE YEAR ENDING 30th JUNE 1929.

CALCUTTA, THE 11TH JULY 1930.

RESOLUTION—No. 3372Co-op.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faroqui.

Read—

The Report on the working of the Co-operative Societies in the Presidency of Bengal for the year ending 30th June 1929.

Administration.—Important decisions were taken after the close of the year in the matter of policy relating to the recruitment of the superior controlling staff of Assistant Registrars, and the employment of the subordinate auditing staff of primary societies.

Experience has shown that the arrangement under which the staff of Assistant Registrars has been loaned from the cadre of the Bengal Civil Service, Executive Branch, is not altogether satisfactory. It has also been found necessary to offer an opening to deserving and meritorious officers of the Subordinate Co-operative Service for promotion to the higher service. In 1928 one of these posts was filled by the promotion of a departmental officer. Other two posts have now been excluded from the cadre of the Bengal Civil Service and permanently filled by the selection of two officers—one belonging to that service and another by a member of the Bengal Junior Civil Service—who had served in the department and expressed their willingness to continue in it permanently. It has been decided that future recruitment to these three special posts, when they next fall vacant, will be made by selection of departmental officers. The remaining posts will continue to be filled by members of the Bengal Civil Service who will stay in the department normally for a period of five years and then revert to their own cadre.

In order to remove the difficulty experienced in carrying out the statutory audit of primary societies owing to deficiency in the strength of the audit staff, Government have decided that, as the receipts from audit fees increase automatically from year to year, there should be a corresponding increase in the number of auditors. In accordance with this principle 60 additional auditors were sanctioned during the last financial year and 53 during the current year.

Necessary instructions have also been communicated to the Registrar as to the procedure to be followed for making provision for the staff required each year. As, however, the liability of Government to meet the cost of the audit staff of societies other than infant and anti-malarial societies must not exceed the receipts from audit fees, it is hoped that the societies from which they are due will realise the importance of punctual payment of these fees.

The Minister-in-charge trusts that with the appointment of the necessary staff for primary audit the Inspectors will now be in a position to devote more of their time to the important duties of propaganda, inspection, supervision and test audit, and above all to pay attention to the work of educating the members in the principles of co-operation on the great importance of which stress has been laid by the Royal Commission on Agriculture. He also expects that the Assistant Registrars will find it possible to get into closer and more frequent personal touch than at present with co-operators in their respective jurisdictions, so that they may have first-hand knowledge of all that should be known and rectify defects on the spot.

2. **Progress of the movement.**—The Royal Commission has rightly emphasised the vital importance of co-operation to the agriculturist. It goes without saying that this movement is a potential and progressive factor whether in the domain of agricultural finance which furnishes the sinews of material activity, or marketing of agricultural produce or the organisation of agricultural operations on a basis of joint endeavour or rural welfare. It is gratifying to notice that

the Bengal Co-operative Department is fully alive to the importance of an all-round application of co-operative principles for the improvement of the economic and other conditions of the people.

Adverse comment has sometimes been made of the fact that the credit aspect bulks so largely in the movement. But as pointed out by the Royal Commission, experience has amply proved the advantage of this type as a foundation for other forms of co-operation, and there are good reasons why the movement is still predominantly credit in its character. This side of the movement, therefore, needs as much attention as the non-credit side. Although success in co-operation cannot be gauged by figures, and although quality does not necessarily follow from numerical increase, statistics furnish interesting data for a critical study of the movement. The fact that during the year under review the proportion of members of agricultural credit societies to families in rural areas in the province was only 4·7 per cent., taking the number of rural families to be 8,702,000 as estimated by the Royal Commission on Agriculture, goes to indicate that the credit movement has so far been able to touch only a fringe of the rural population. And if the burden of debt of the rural population is to be lifted and their lot improved much patient and up-hill work on the credit side yet remains to be done by the department.

The proportion of average deposit amounting to Rs. 1·9 by an individual member to the average loan of Rs. 37·72 taken by him probably indicates scope for the inculcation of the habit of thrift among the members.

Last but not least is the steady increase of overdue loans which have gradually risen from Rs. 62·45 lakhs or 25·5 per cent. of the total outstandings in 1926-27 to Rs. 118·29 lakhs or 34·4 per cent. in the year under review. This feature has been engaging the attention of Government for sometime past. The increase has been attributed more or less to the unsatisfactory harvests and low price of agricultural produce, particularly of jute, during the last two years; and it has been pointed out that the owned capital of the societies sufficiently covers the entire amount of overdues and the position is well within the margin of safety.

Government in the Ministry of Agriculture however are not convinced that the accumulation of overdue loans could be entirely attributed to adverse agricultural conditions nor can they view with equanimity a situation which may jeopardise the healthy growth of the movement. The year under review was on the whole prosperous, but it is remarkable that the percentage increase of overdues in all the divisions was much higher than in the preceding year, when conditions were far less satisfactory. The causes must, therefore, be looked for elsewhere, and the Registrar should satisfy himself whether they have been due to inherent defects either in the management of the societies, the system of loans or the lack of co-operative education.

Turning to the non-credit side of the movement, Government are pleased to note that a policy of caution is being pursued in the organisation and working of societies and that more attention is paid to the expansion of business of the existing societies and consolidation rather than to the organisation of new societies. Too much stress cannot be laid on the importance of business management of these societies and their expert guidance, since experience shows that these are the essential requirements for ensuring the success of such societies.

Among the societies organised for the marketing of agricultural produce great interest attaches to the jute sale societies; and as pointed out by the Registrar the problems connected with this type of societies are for obvious reasons very difficult and complicated. The fluctuations in the Calcutta market and other speculative elements in the business are factors which render the business risky and uncertain. The financial and other aspects of these societies are now engaging attention.

The remarkable progress made by the co-operative societies for the marketing of milk furnishes an example of the success that can be achieved under expert guidance and advice.

3. **Non-agricultural Societies.**—Among this class of societies great interest attaches to the anti-malarial and public health societies, the importance of which in promoting village welfare attracted the attention of the Royal Commission. The League of Nations Malaria Commission made a special

study of the working of the anti-malarial societies during its visit to the province.

The work of village reconstruction societies in Birbhum district under the Rural Reconstruction Department of the Visvavarati at Bolpur and of organisations among women also deserves mention.

The Royal Commission has drawn particular attention to the great opening for co-operative activities in the improvement of village life in order to bring home to the cultivators the value of "better living" which should follow from "better farming." In no field of rural work have co-operative and private organisations a greater opportunity for usefulness than in village uplift. The Minister-in-charge, therefore, trusts that co-operators will set themselves earnestly to the task of improving the lot of the agricultural population who constitute the backbone of the province.

4. **Co-operative Finance and the Banking Enquiry Committee.**—Particular interest attaches to the work of the Banking Enquiry Committee whose investigations cover a wide field including agricultural credit and credit facilities for allied industries as well as cognate matters relating to rural banking, marketing, etc. The report of the Committee will be awaited with great interest.

5. **Royal Commission.**—The more important recommendations of the Royal Commission on Agriculture were considered at the Tenth Conference of Registrars of Co-operative Societies in India held at Simla in September and October 1928. They are now under consideration of this Government along with the resolutions of the Conference. It is worthy of note that the policy underlying the Royal Commission's recommendations is recognised in this Presidency and is generally followed in principle.

6. **Acknowledgment.** — Government have great pleasure in acknowledging the services rendered by a gradually increasing number of officials and non-officials who spared no pains to assist the growth of the co-operative movement.

and, when they are to be so made, the **Commissioners** may require the cost thereof to be paid or deposited before the work is executed.

POWER TO **Commissioners** TO INSPECT PREMISES.

9. (1) If the owner or occupier of any premises to the service-pipe of which a meter is attached desires to have the meter tested, he may send a written application to the **Commissioners**, and such application shall be accompanied by a fee of five rupees.

(2) Upon receipt of any such application and fee, the **Commissioners** shall forthwith cause such meter to be tested, at a time and place to be specified in a notice to be served upon such owner or occupier.

(3) If such meter is found, upon being so tested, to register more than two *per cent.* in excess of the correct quantity, the said fee shall be returned to the person who sent it.

The instructions noted below should be observed by Drawing Officers in the preparation of establishment bills and the disbursement of their proceeds—

(1) The office and fair copies of all monthly pay bills should be totalled by different clerks independently, and the Drawing Officer should note that the totals in both bills agree.

(2) It is not sufficient that the component items of an establishment bill should be checked. The total shown in the bill should also be checked by adding up the items. This should be done by the Drawing Officer, or by a Gazetted Officer before the bill is signed by the Drawing Officer.

(3) The total of an acquittance roll should be checked against the total of the corresponding establishment bill and the money received from the treasury. It should be seen that any difference between the totals is properly accounted for, that every payee has given a proper quittance and that any undisbursed amount is returned to safe custody. This should be done by the Drawing Officer or by a Gazetted Officer.

(4) It should be arranged, wherever practicable, that disbursements are not made by the clerk who prepares the establishment bills.

NOTIFICATIONS.

No. 8167Jur.—11th July 1930.—In exercise of the powers conferred by section 6 of the Indian Census Act, 1929 (X of 1929), the Governor in Council proposes to issue the following instructions for the guidance of census officers in all districts within the jurisdiction of the Governor of Bengal including the town of Calcutta. The instructions will be finally issued after consideration of such objections as may be received within one month from the date of issue of this notification.

Every census officer is authorised to ask of all persons within the limits of the local area for which he is appointed such questions as may be necessary to enable him to fill in, in respect of each of such persons, the particulars required by the following form of schedule, but no census officer shall insist upon recording the name of any woman if there is any objection to giving it or ask to see any female who is not voluntarily produced before him or ask for any information not required for the purpose of the census such as the amount of any person's income or the name of any woman's husband.

Instructions to Enumerators.

I.—Rules for filling up the Schedule.

You must use black ink only and write very clearly.

Column 1 (House Number).—Enter the number of the house. If it is empty, write "*empty*" after the number, and leave one line blank. If you find a house without a number, you will report to the supervisor for orders. For census purposes a house means one or more buildings occupied by one family; that is a number of people living and eating in one mess with their resident dependents such as mother, widowed sisters, younger brothers, etc., and such servants as reside with them. Houses, however, which are at a distance from each other and entirely separate, though belonging to the same commensal family, should be treated as separate.

Column 2 (Serial Number).—This column is not to be filled up until after the final enumeration. You will then enter a serial number for all persons enumerated.

Column 3 (Name).—Enter first the chief resident member of the family, whether male or female, then the other members of the family and their resident servants, if any. The name of the chief resident member of the family is essential, but for others the relationship will do, *e.g.*, "*wife of so and so,*" "*guest of so and so,*" "*son of so and so,*" etc. If an infant has not yet been named, enter the word "*infant.*" When you have entered all the persons in a house, you will leave one space blank before making the entries for the next house.

Column 4 (Religion).—Enter here the religion which each person professes, as *Hindu, Muslim, Sikh, Jain, Christian, Buddhist, Parsi* and the sect where necessary. In the case of Christians, the sect must always be entered. In the case of aboriginal tribes who are not Hindus, Musalmans, Christians, etc., the name of the tribe should be entered in this column.

Column 5 (Male or Female).—Enter whether *male* or *female*, even though you have written the word "female" in column 3 already.

Column 6 (Married, etc.).—Enter each person, whether infant, child or adult, as either *married, unmarried* or *widowed*. Divorced persons should be entered as widowed.

Column 7 (Age).—Enter the age as it was or will be on the birthday nearest to the date of final enumeration, *i.e.*, to the nearest approximate number of years. For infants less than six months old enter the word "*infant.*"

Column 8 (Caste, tribe or race).—Enter in this column the caste of Hindus as, for instance, *Brahman, Kayastha, Shaha, Teli*, etc., and in the case of wide castes, the subcaste also. For Aryas, Brahmos, Jains and Sikhs enter caste if they recognise caste and tribe if they do not. Enter for Muhammadans the racial group (*Saiyad, Shekh, Mogal, Pathan*) or functional group (*Behra, Jolaha, Kulu*, etc.), which they profess. Enter the tribe of aboriginals as, for instance, *Santhal, Oraon*, etc.. Enter for Buddhists whether they are *Burmese, Maghs*, etc. For Parsis and other Indians (such as some Christians) who have no caste or race enter "Indian." For other than Indians enter race, *i.e.*, whether they are English, Canadian, French, Anglo-Indian, Goanese, etc.

Column 9 (Earner or dependent).—Enter as *earners* persons who actually work or carry on business, whether personally or by means of servants; or who live on rents, pension, etc.; or who have a share in a coparcenary property or trade or financial concerns and are supported or principally supported thereby. Enter all other persons as "*dependents.*" Women and children are ordinarily dependents even if they regularly work or assist the members of their family at their work; but if they regularly get money or any kind of direct return for their work and thereby augment the family income, they are earners.

Column 10 (Principal occupation).—Enter the principal means of livelihood of all earners. Enter the exact occupation and avoid vague terms such as "service" or "writing" or "labour." For example, in the case of labour, say whether in the fields or in a coal mine or jute factory or cotton mill or lac factory or on earth-work, etc. Enter as "*landlords*" those who have land but lease it out and live on the rents in cash or kind and do not actually cultivate either themselves or by servants or hired labourers and distinguish between landlords of agricultural land and of houses or town property. Enter as "*agricultural labourers*" those who cultivate land for hire in cash or kind. Enter all other persons cultivating the land either with their own hands or by servants or hired labourers as "*cultivators*" and distinguish between those who have either a tenure or a permanent lease or occupancy right and those who have no tenure or permanent interest. If a person makes the articles he sells he should be entered as "*maker and seller*"

thereof. Women and children who work at any occupation which helps to augment the family income and have been shown as earners in column 9 must be entered in column 10 under that occupation. Column 10 will be blank for persons entered as "*dependents*" in column 9.

Column 11 (Subsidiary occupation).—Enter here any occupation which earners pursue at any time of the year in addition to their principal occupation. Thus, if a person lives principally by his earnings as a boatman but partly also by fishing, the word "*boatman*" will be entered in column 10 and "*fisherman*" in column 11. If an earner has no additional occupation the column will be left blank. If a person shown in column 9 as dependent has an occupation it will be shown in column 11. Dependents who help to support the family by subsidiary work, *e.g.*, a woman who helps in the fields as well as doing house work, will be shown in column 11.

Column 12 (Industry in which employed).—Enter in this column the industry only in the case of those who exercise the occupation recorded in column 10 or 11 for pay in the employ of a company, firm or individual similarly employing and paying other persons. In other cases leave the column blank. Thus in the case of a person shown as "*carpenter*" in column 10 or 11 column 12 will be blank unless he is employed and paid wages by some company, firm or individual employing and paying wages also to other persons; but it will contain the entry "*furniture-making*" or "*motor-repairing*" or "*boat-building*" if he is regularly employed by such a concern. Similarly for managers, clerks, operatives or workmen employed in a factory or by any person employing industry enter the name of the industry, *e.g.*, "*biscuit-making*," "*jute-spinning*," "*jute-weaving*," "*paper-making*," "*coal-mining*," "*tea-growing*," "*rice-milling*," etc.

Column 13 (Birth district).—Enter the district or State in which each person was born; and if the person was not born in Bengal add the name of the province to the district of birth. If the person was born out of India, enter the country as *Nepal*, *Afghanistan*, *Ceylon*. The names of villages, tahsils, etc., are not to be given.

Column 14 (Language).—Enter the language which each person ordinarily uses from childhood in his own home. In the case of infants and deaf-mutes the language of the mother should be entered.

Column 15 (Other languages in common or domestic use).—Enter here any other language or languages habitually spoken by each person in daily or domestic life in addition to his mother tongue shown in column 14.

Column 16 (Languages in which literate).—Enter against all persons the name of all current languages which they can both read and write. In the case of persons who cannot read and write any language this column will be blank. Where Hindustani is the spoken language enter "*Urdu*" or "*Hindi*" according to the script in which the language is written.

Column 17 (Literacy in English).—Enter the word "*literate*" against all persons shown as literate who can *both* read and write English. The column will be blank for those who cannot.

Column 18 (Infirmities).—If any person be blind of both eyes (*i.e.*, unable to count the fingers of a hand held up at less than one yard's distance from him), or insane, or suffering from corrosive leprosy, or deaf and dumb, enter the name of the infirmity in this column.

Do not enter those who are blind of one eye only, or who are suffering from white leprosy only.

II.—PROCEDURE.

A.—The first round (Preliminary Enumeration).

1. Beginning from the 1st January 1931 (16th Pous 1337 B.S.), you will visit every house in your block on which a separate number has been affixed, in the order in which the houses are entered in your block list, and fill up the columns in the schedule for all persons who ordinarily live in or take their meals from the house. Even if they are temporarily absent, such person should be entered, if they will be back by the 26th February (14th Falgoon). Visitors should not be entered if they will have left before that date.

2. You must carefully study the instructions given above for filling in the columns of the schedule and also the specimen schedule on the cover of this book, which contains a number of entries illustrating the rules. You should consult your supervisor whenever you are in doubt as to the proper entry.

3. If directed to do so by your supervisor, you will make a rough draft on plain paper, and you will not copy it in your book, until it has been passed by him.

4. If the entry for any person in any of the columns of the schedule be the same as that for the person entered on the line above, you must repeat the entry. You must not write the word "*ditto*" or make dots.

5. You must have completed all the entries in your block by the 1st February 1931 (18th Magh 1337 B.S.).

6. Between the 1st and 26th February (18th Magh and 14th Falgoon) you must with special care look out for and report to your supervisor any houses newly erected or newly occupied in your block. You will make entries in the schedule for all persons living in such houses and will get such entries examined and tested by your supervisor.

B.—The second round (Final Enumeration).

7. On the evening of the 26th February (14th Falgoon), at the time of lighting lamps, you will take this book as already filled in and again visit every house in your block in order. Before you start on your round you must see that you are yourself enumerated in the house where you are stopping.

8. You must summon the chief member of each family and read over to him one by one the names of the members of his household entered in the schedule, asking him, as you read each name, whether the person is present in the house or not. You must also ask him particularly whether any fresh persons have come or any child has been born. You must strike out the entries for persons who are not present, and fill up the form for any person now in the house who was not there when the first visit was made, such as guests, newly-born infants and others. You are to consider as present all persons living in or taking their meals from the house, even though any of them may be out fishing or watching in the fields or the like.

9. The fresh entries mentioned in the last rule must be made on the blank pages at the end of your book. In each case you will enter the number of the house to which the fresh entries relate, writing under it the word "*continued.*"

10. You must make no alteration whatever in any entry against the name of any person unless you have to strike out the entries altogether, because he or she is no longer present. When you strike out a person, you must draw a line completely through all the entries following that person's name, and not merely through column 3.

11. Whilst going on the final round, you must visit every house marked "empty" in your book, to see whether any person is then living there.

12. You must also go to the *dharamsalas, sarais*, encampments and landing places, where travellers rest for the night, and enter all particulars in the schedules for the wayfarers, boatmen, pilgrims and others you may find there, and strike out the entries already made against persons who are not then present. You should ascertain from the village watchmen whether any members of a wandering tribe have come to your block. If so, you must go and enumerate them in the manner prescribed above.

13. If any house-holder in your block has been given a separate schedule, you must collect it on the morning of the 27th February (15th Falgoon), and after seeing that columns have been duly filled in according to the rules, you must stitch it into your book, next to the last schedule filled up by you.

14. You will then on the morning of the 27th February (15th Falgoon) go without any delay to the place appointed by your supervisor, and after your book has been inspected by him, you will enter in the abstract printed on the inside of the cover, the number of occupied houses and persons, male and female, in your block.

15. According to the Census Act, every person is legally bound to furnish you with such information as is necessary for filling up the schedule, but you are forbidden to ask for any information not required for the purposes of the census, *as, for instance, the amount of any person's income* or to disclose to any unauthorised person any information given. Any enumerator extorting money on any pretext connected with the census, renders himself liable to punishment under the Census Act or the Penal Code. Entries in the schedules are confidential and cannot be used hereafter in any legal proceedings in the Civil Courts.

IRRIGATION DEPARTMENT.

NOTIFICATIONS.

[Fourth publication.]

No. 5T.I.—2nd June 1930.—In exercise of the powers conferred on him by sections 78 and 99 of Act III (B.C.) of 1876, the Governor in Council proposes to pass the following rules and fix the undermentioned rates to be charged for water supplied from the Bakreswar Canal in the Birbhum district.

2. Notification No. 2-I., dated the 1st April 1930, on the subject published in the *Calcutta Gazette* in its issue of the 17th April 1930, and three successive issues, is hereby cancelled:—

Leases for a term of years.

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

I.—Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II.—All leases within one block shall be so granted that they may expire on the same date.

III.—No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any probability of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″=1 mile when such are available, and elsewhere at scale 16″=1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land

in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. The lands to be brought under lease shall be indicated on a copy of the map alluded to in rule 5.

7. On receipt of such approval the Subdivisional Canal Officer shall depute an amin to prepare the *khasra* or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and *khasra*. Should the survey map and *khasra* not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the *khasra*, the Subdivisional Canal Officer shall forward it to the Divisional Canal Officer for approval.

9. As soon as the *khasra* has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a *khatian* or abstract of the *khasra*, and shall have the form of application, given as Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No. II to these rules. This application must be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures should be those of the leading cultivators in the block in question and they should represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June, may be presented at the Subdivisional Canal Office or to the Sectional Officer. They must be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer is empowered to give the required supply by rotation should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17. The rates due for water supplied shall be collected by the Subdivisional Canal Officer through his staff of tahsildars and peons. All *khatians* or demand statements shall be signed by the Subdivisional Canal Officer after scrutiny in his office.

18. At the time of preparation of the *khatian* in the Subdivisional Canal Officer's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. In regard to any proceedings taken under the Public Demands Recovery Act the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water.

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall in deciding the case give his reasons for or against assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged, subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or *khatian* shall be sent to the Subdivisional Canal Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Act shall count from the date on which the statement of the charge is furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or subordinate employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

25. Complaints or applications with respect to corrections of the assessment, with respect to the actions of the amins in assessing, and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Divisional Canal Officer.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

Remissions and Alterations of Demand.

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given in whole or in part by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than 15 days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause will only be allowed under the special orders of the Local Government.

Irrecoverable Demands.

37. The Superintending Engineer is empowered to sanction the write-off of those demands which are reported, after due enquiry by the Divisional Canal Officer, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Subdivisional Canal Officer shall select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) In the preparation of applications for leases.

(*ii*) In the measurement of irrigated lands.

(*iii*) In recording the names of the occupiers of the holdings.

(*iv*) In receiving demand statements and distributing to the cultivator the individual notices of assessment

(*v*) In attending, when required, at enquiries into complaints.

(*vi*) In reporting to the Subdivisional Canal Officer any changes in the occupancy of lands under lease.

(*vii*) In assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation which may lie within the boundaries of the leased area, subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Subdivisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases.

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous.

45. Tanks may be supplied with canal-water without charge, when water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

(*i*) That the water is to be exclusively used for domestic purposes, or for watering cattle.

(*ii*) That a channel exists through which water can pass without waste.

(*iii*) That the water shall only be supplied on the written order of the Subdivisional Canal Officer.

(*iv*) That any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water.

(*v*) That the supply of water may be stopped at any time if it is found that it is being misused.

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule, may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Irrigation Act, as a place for relieving the calls of nature, is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

48. Should water be required for purposes other than irrigation, it may be supplied when available at a rate of one rupee per 10,000 cubic feet of water.

49. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

CALCUTTA, *the 18th July 1930.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 11th July 1930.

Monthly Weather and Crop Report of Bengal for June 1930.

I. **Character of the season.**—During the month under review, the rainfall was average in eleven districts, while elsewhere it was in defect. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparation of lands for winter paddy and sowing of the same in nurseries continued under favourable conditions on the whole. Heavy rain in East Bengal checked the growth of highland jute, but more rain was still needed for preliminary operations in parts of West Bengal. Transplantation of paddy was reported to have commenced in some districts before the middle of the month. Weeding of autumn paddy was almost completed in East and North Bengal, while in West Bengal the operation still continued. Harvesting of low-land jute commenced in parts of East Bengal during the month.

III. **State of standing crops.**—The condition of standing crops was reported to be generally satisfactory.

IV. **Prospects and probable outturn.**—The outturn of autumn paddy is expected to be very satisfactory except in some East Bengal districts where heavy rain and flood affected the crop to a small extent. The prospects of sugarcane and deep water paddy are reported to be generally promising.

V. **Damage to standing crops.**—No damage to standing crops was reported from any part of the province, except from parts of Birbhum where locusts caused damage to paddy seedlings in the third week of the month.

VI. **Condition of agricultural stock.**—The condition of live-stock was reported to be generally fair. Sporadic cases of cattle-disease, however, were reported from the districts of the Presidency and from the States of Cooch Behar and Tripura.

VII. **Failure of pasturage and fodder.**—The supply of fodder was reported to be sufficient throughout the Presidency, except in the last part of the month from parts of the Tripura State.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the retail price of common rice of the cheapest quality rose in four districts, fell in five and remained stationary in the rest of the Presidency. The prices varied from 9½ seers per rupee in Howrah to 5 seers in the 24-Parganas.

IX. **Condition of agricultural population.**—The condition of agricultural population continued to be fair on the whole.

PRELIMINARY FORECAST OF THE JUTE CROP, 1930.

Consolidated Statement for Bengal, Bihar and Orissa and Assam.

[This Forecast deals with estimates of areas only. Estimates of outturn are dealt with in the Final Forecast.]

Revision of area for 1929.—It has been found advisable to increase the area published in the final forecast for 1929 by roughly 100,000 acres, the revised figure being 3,414,965 acres as against 3,316,605 acres.

Area in 1930.—The estimated area of jute in the three provinces is 3,506,700 acres, an increase of 91,700 acres, or about 2·7 per cent. as compared with the revised total for 1929.

The consolidated figures are as follows:—

PRELIMINARY FORECAST OF THE JUTE CROP OF BENGAL, 1930.

[NOTE.- **On an average of the five years ending 1927-28, the area under jute in Bengal, to which this Forecast relates, represents some 86·1 per cent. of the total area under jute in British India.**]

The Preliminary Forecast deals only with the estimates of area sown and the condition of the crop at the time of publication of the forecast. The estimates of area are based on information received through the Collectors from the Revenue staff; also from Panchayets and Agricultural Officers.

Revision of area.—It has been found advisable to increase the area published in the Final Forecast for 1929 by roughly 74,000 acres, or about 2·4 per cent.

Area sown in 1930.—In Bengal, returns for the present season shew a total area of 3,062,300 acres, an increase of about 42,000 acres, or 1·4 per cent. as compared with the revised figures for 1929.

Character of the season.—Up to date, excepting in small areas in the Presidency and Rajshahi Divisions, where sowings were retarded by drought, weather conditions have been favourable throughout the jute-growing tract. The very gradual rise of the rivers has also helped the lowland crop.

Present state of the crop.—The present state of the crop may be regarded as having been exceptionally good up to the middle of June. Latterly heavy rain has checked growth in parts of Eastern Bengal, but the outlook is still favourable, on the whole.

Stock.—Stocks of fibre from last year's crop are reported to be considerable.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

PRELIMINARY FORECAST OF THE JUTE CROP OF BIHAR AND ORISSA, 1930.

[NOTE.- **On an average of the five years ending 1927-28, the area under jute to which Bihar and Orissa Forecast relates, represents about 8·0 per cent. of the total area under jute in British India.**]

The present Forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales.

2. **Acreage.**—I estimate the area sown during the current and four preceding years in round numbers as follows:—

Year.	Acreage.
1926	297,000
1927	241,000
1928	247,000
1929	238,000*
1930	238,000

3. **Weather conditions.**—In March light showers fell in the jute districts. The fall was above the normal in Champaran, Muzaffarpur, Darbhanga, Bhagalpur and Purnea, and below the normal in the remaining three jute districts. In April and May light rain fell in all the jute districts. The fall was below the normal everywhere. In June rain fell in all the jute districts; the fall was light to moderate everywhere. The weather conditions are reported to be favourable except in Purnea and the Santal Parganas. Sowings are still going on in Purnea, Cuttack and Balasore.

4. **District returns.**—Last year's area under jute was finally estimated at 231,400 acres, but recent enquiries show that this estimate is still lower than the mark and that last year's area was not less than 238,000 acres and the latter acreage therefore has been shown this year. The total area under jute this year is estimated by District Officers in round figures at 176,100 acres, and in my opinion this is highly under-estimated and this year's figure is likely to be not less than 238,000 acres which is the revised estimate for last year.

5. **Condition and prospects.**—The condition of the crop is fair.

6. **General.**—The quantity of jute which remains in the jute districts from the crops of 1929 is reported to be small except in parts of Purnea.

The statement below compares the estimated area under jute in this province this year with the preliminary and final figures of last year:—

Name of province.	Estimated acreage under jute.			Difference between the preliminary forecast of 1930 and Final Forecast of 1929.

APPENDIX I.

Preliminary forecast of the jute crop of Bihar and Orissa for 1930.

Division	District.	Total area of the district.	Estimated total area under cultivation.	Estimated normal area under jute. (The figure has been arrived at by taking the average of 10 years immediately preceding the year to which this forecast relates.)	Estimated area under jute.		Whether much, little or no jute remains in the district from the crop of 1929.	Date by which the sowing of the crop generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.

Tirhut	Champaran ..	2,263,194	1,430,200	2,000	7,676	7,676	Nil ..	April ..	The weather and rainfall have been favourable. The present condition of the crop is fair. The date of sowing was normal and has been completed.
	Muzaffarpur ..	1,934,630	1,627,000	2,400	4,000	3,800	Nil ..	March ..	The condition of the crop is fair. The date of sowing was normal.
	Darbhanga ..	2,142,720	1,677,800	(a) 1,600	..	1,236	....	Latter part of May and early in June (normal).	The weather and rainfall have been favourable. The prospect of the crop is good.
Bhagalpur	Bhagalpur ..	2,661,120	1,684,100	2,300	4,107	4,305	Little ..	April (normal) ..	The cultivation of jute has increased in Supaul subdivision as the cultivators are benefited by its cultivation.
	Purnea	3,196,160	1,694,400	176,700	160,000	140,000	Much in Araria but little in Sadr and Kishunganj.	April ..	The weather and rainfall were not favourable for the growth of the crop. The present condition of the crop is fair. The sowing was late at places for want of timely rainfall. At other places it was normal where the jute was sown in low-lands. The sowing is still continuing in some places. The crop of this year is expected to be the same as that of last year except in Kishunganj subdivision where it is expected to be less. The decrease in area under the crop is due to late rainfall and the less price the jute of last year fetched.
	Santal Parganas ..	3,500,800	1,717,900	1,100	1,000	750	Very little ..	May (normal) ..	Scanty rainfall has somewhat stood in the way of the satisfactory growth of the seedling though no appreciable damage has yet been done to them. The condition up till now is fair.

DEPARTMENT OF AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE JUTE CROP OF ASSAM, 1930.

[NOTE.—**On the average of the five years ending 1927-28, the area under jute in Assam represents 4·7 per cent. of the total area under jute in British India.**]

Character of the season.—The weather has been on the whole favourable for the cultivation and growth of the crop. Slight damage has however been done by hailstorms in the Goalpara and Nowgong districts. The present condition of the crop appears to be good and prospects are better than last year in all districts except Sibsagar where the outturn is expected to be below normal.

2. **Area sown.**—The total area under jute as estimated by the Deputy Commissioners is 206,400 acres against the final area of 156,600 acres of last year. There is increase in area in all districts except Kamrup and it is due to favourable weather condition at the sowing time.

3. **Stock.**—According to the reports of the Deputy Commissioners, a little jute remains in stock from last year's crop in Goalpara, Kamrup and Darrang, but the Deputy Commissioner, Nowgong, reports a rather considerable stock in hand.

APPENDIX I.

Preliminary forecast of the jute crop of Assam, 1930.

District.	Area under jute.			Difference between the figures now estimated for 1930 and the final of 1929.		Whether much, little or no jute remains in the district from the crop of 1929.	Date by which the sowing of the crop generally commenced this year and whether that date was early, normal or late.	Remarks by the Deputy Commissioners.
	Normal.	Final of 1929.	Now estimated for 1930.	Increase.	Decrease.			
1	2	3	4	5	6	7	8	9
	Acres.	Acres.	Acres.	Acres.	Acres.			
Cachar ..	300	200	400	200	..	No ..	Beginning of April. Normal.	The increase in area is due to favourable weather at sowing time. Till now the condition of the crop is good and the outturn is expected to be better than last year.
Sylhet ..	20,000	5,700	21,600	15,900	..	No ..	Beginning of March. Early.	The increase in area is due to failure of last year's crop resulting in widespread distress in the district from which people have sought early relief by extensive jute cultivation to make good their loss. The weather is favourable for the crop and a better outturn than last year is expected.
Goalpara ..	60,000	58,400	84,800	26,400	..	Little ..	First part of April. Normal.	The increase in area is due partly to the extension of cultivation and partly to favourable weather at the sowing time. The effect of weather on the crop has been good for the growth, although slight damage was done by hailstorm in some places. The present condition of the crop is good and a better outturn than last year is expected.
Kamrup ..	15,000	19,800	17,700	..	2,100	Little ..	Beginning of April. Normal.	The decrease in area as compared with the last year's actual is due partly to ordinary fluctuations and partly to the fact that more land has been occupied for growing autumn rice. The weather has been favourable for the cultivation and growth of the crop and the outturn is expected to be better than last year.
Darrang ..	12,600	17,300	18,000	1,300	..	Little ..	Middle of April. Normal.	The increase in area is due to extension of cultivation. The weather has been favourable for the crop and a better outturn than last year is expected.
Nowgong ..	40,000	49,000	56,600	7,600	..	Considerable quantity remains.	First week of March. Early.	The favourable weather at the sowing time accounts for the increase in area. The present condition of the crop is good and the outturn is likely to be better than last year. A little damage to the crop was done by the hailstorm.
Sibsagar ..	300	400	400	..	..	No ..	Middle of April. Normal.	The weather on the whole was not quite favourable on account of continuous rain at the sowing time. Till now the weather remains almost to be the same and so the outturn is expected to be below normal.
Lakhimpur ..	200	1,100	1,200	100	..	No ..	First week of April. Normal.	The increase in area is due to extension of cultivation. The weather has been generally favourable for the crop, although heavy rains in the middle of April interfered with the sowing operation. The present condition of the crop appears to be good and a better outturn than last year is expected.
Garo Hills (Plains)	3,300	4,700	5,100	400	..	No ..	Middle of March. Normal.	Favourable weather accounts for the increase in area. The weather till now is favourable and the condition of the crop is good. The outturn is expected to be better than last year.
Total ..	151,700	156,600	206,400	51,900	2,100

H. J. TWYNAM,

Secy. to the Govt. of Bengal.

Stamped Twelve Annas.

Agreement.

Memorandum of agreement made this 16th day of July one thousand nine hundred and thirty between the Kalna Central Co-operative Bank, Limited, a registered society within the meaning of the Co-operative Societies Act, II of 1912, and having its registered office at Kalna in the district of Burdwan (hereinafter called the Society) of the one part, and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of the construction of an office building and other necessary outhouses (and for affording accommodation to co-operative societies either established at Kalna or affiliated to the Society) for the Kalna Central Co-operative Bank, Ltd., the Society has applied to the Government of Bengal for the acquisition, under the provisions of the Land Acquisition Act, I of 1894, of the piece or parcel of land measuring 1·94 acres or thereabout situate in Mahalla Kansaripara, Ward No. III of the municipal limits of Kalna, in the district of Burdwan, and more particularly described in the schedule hereto and delineated in the plan* hereunto annexed.

And whereas the said Government of Bengal being satisfied by an enquiry held under section 5A and clauses (*a*) and (*b*) of section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Society the piece or parcel of land hereinbefore described.

And whereas the said Government of Bengal has required the Society under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows:—

3. On payment by the Society of all demands under the foregoing first clause, or in the discretion of the said Government of Bengal (on deposit by the Society of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the abovementioned Act, the Secretary of State shall make over possession of the said land to the Society and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Society.

7. On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(*i*) Should the said Government sell the land with the buildings the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Society.

8. The public shall be entitled to use the said land and buildings subject to the laws and rules governing co-operative societies and to the by-laws of the Society.

9. Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant, clause or thing herein contained, the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.
